

FUNDACIÓN E2E WORKSHOP FOR SOCIAL IMPACT MANAGEMENT

TALLER PARA LA GESTIÓN DE IMPACTO SOCIAL (TGIS)

TGIS is a competitive international program in Medellín, Colombia for current and aspiring social impact practitioners on project design, management and impact measurement. Participants collaborate with Colombian and international students, professionals, and community leaders to solve real issues using cutting-edge tools.

TGIS is an unparalleled experience in a collaborative classroom environment where participants learn methods they can apply directly in their work. The program also offers MIIS students the opportunity to use the skills they learned in TGIS working with local organizations on projects across Colombia.

APPLY TODAY AT:
