

**Teacher Training XO -- Final Performative Assessment:**

Outline:

HTs will conduct one of their lessons in the week following Teacher Training using the XO laptops. The lesson will be either videotaped or observed by one of the TTs (depending on the teachers' comfort level, which is to be determined by TTs onsite). TTs will provide feedback according to the rubric on page two. Observing TT will then meet with the HT for one hour for a one-on-one conference to give suggestions and constructive feedback and discuss possibilities for future integration of the XO laptops in the HT's specific classroom. This will also be a forum for the HTs to ask the TT any lingering questions and to open lines of communication for future questions (e.g. exchange emails, Skype names, etc.)

Criteria:

During the last meeting of the Teacher Training, TTs will go over the final assessment to ensure that the criteria are clear. HTs will be evaluated based on their displayed confidence in using the laptop, the clarity with which they explain the App(s) to their students, and how thoroughly the HT integrates lesson material with the laptop (for example, use of the laptop must go beyond a game at the end of the lesson). The TT will also observe the lesson with consideration to how well the HT engages the students and incorporates the pedagogical teaching strategies learned in the workshop. The TT will use the rubric on page two to evaluate the HT on each criteria based on a scale of one to four. A one will be earned if the HT rarely or never meets the criteria. A four will be earned if the HT meets the criteria at all times and demonstrates general excellence.

TEAM EFL HAITI

Teacher Name: \_\_\_\_\_ Date: \_\_\_\_\_ Evaluator: \_\_\_\_\_

	4 (Always)	3 (Mostly)	2 (Sometimes)	1 (Rarely or Never)
Teacher demonstrates confidence with XO laptop.				
Teacher's explanation of the App(s) is clear and comprehensible.				
Teacher integrates laptop use with lesson material.				
Teacher engages students in laptop activity.				
Teacher employs pedagogical strategies learned during the workshop.				

Non-negotiable:

-Teacher incorporates one or more apps.
