

Summary		Worldserver		XTM International		Score Key: 1 = poor/unknown, 2 = fair, 3 = good, 4 = great, 5 = excellent	
Component	weighted	raw	weighted	raw	weighted	Description	
Tools	20.00%	23.00	4.6	22	4.4	What tools are included	
Configuration	20.00%	19.00	3.8	21	4.2	How the system is set up and configured	
Integration	25.00%	10.00	2.5	10	2.5	Ability to integrate into other applications	
Financial	10.00%	12.00	1.2	13	1.3	System performance	
Security	25.00%	17.00	4.25	18	4.5	System security	
Total	100.00%	16.20	3.27	16.8	3.38		
Breakdown							
Tools	weighted	raw	weighted	raw	weighted	Description	
Editable Workflows	25%	3	0.75	4	1	Can the workflow be edited easily?	
Ability to comment on workflows	10%	1	0.1	1	0.1	Does tool have the ability to allow comments on workflows?	
Quality evaluation	10%	4	0.4	3	0.3	Are there tools for analysis of machine translation quality? Can it be integrated with external qualities?	
Post-editing	25%	3	0.75	4	1	Is there an integrated post-editing interface?	
Glossary support	10%	3	0.3	2	0.2	What glossary tools are included for both training and extending termbases?	
Automatic terminology checker	10%	4	0.4	3	0.3	Are tools available to automatically check terminology PE environment?	
Find and replace capabilities	10%	5	0.5	5	0.5	Does tool allow for regex to assist find and replace?	
Total	100%	23	3.2	22	3.4		
Configuration	weighted	raw	weighted	raw	weighted	Description	
Language Support	30%	5	1.5	5	1.5	Does tool support all language pairs needed by Daikin	
UI Interface	20%	2	0.4	5	1	Is the UI intuitive for translators and management?	
Analytics Reporting	20%	4	0.8	5	1	Possible graph/chart function for analytics reporting.	
Tag/Code handling	15%	4	0.6	1	0.15	Does tool preserve tags in tagged formats? Can tag handling be customized to translate XML elements?	
File filters	15%	4	0.6	5	0.75	Does tool have sufficient file filters to ingest most common file types?	
Total	100%	19	3.9	21	4.4		
Integration	weighted	raw	weighted	raw	weighted	Description	
MT Integration	50%	5	2.5	5	2.5	Can tool integrate a MT engine?	
API flexibility for other integrations	50%	5	2.5	5	2.5	Do APIs exist for integrating into other tools (CMS, CRM, or other TMS)?	
Total	100%	10	5	10	5		
Financial	weighted	raw	weighted	raw	weighted	Description	
Cost estimation by job	30%	4	1.2	5	1.5	Is there the ability to analyse cost by job?	
Cost savings from using TM	35%	5	1.75	5	1.75	Can you utilize different fuzzy parameters to give discounts for TM usage?	
Cost breakdown by words/specific tasks	35%	3	1.05	3	1.05	Can you estimate cost based on word count as well as other costs? (Like DTP, PM fees, etc.)	
Total	100%	12	4	13	4.3		
Security and Customer Support	weighted	raw	weighted	raw	weighted	Description	
Data segregation	25%	5	1.25	5	1.25	Can Daikin data be effectively segregated from all other data?	
Standards (ISO SSAE) compliance	25%	5	1.25	3	0.75	Does host servers meet security standards?	
Ease of migration	25%	4	1	5	1.25	Can the TMS allow for effortless migration from an old TMS?	
Continued customer support	25%	3	0.75	5	1.25	Does the TMS have quality customer support for any issue?	
Total	100%	17	4.25	18
